

Ruma Rua Term 1 Roundup

We have been learning how to work with others, spot patterns in math and share our ideas in a small group and the class.

We have been learning to solve real world math problems. Thank goodness we got the number of pizza's right. It would have been a shame to miss out on pizza if we were wrong.

We took part in the school census and collected data about ourselves. The data was used to find out the most favourite ice cream. Now we get to have a treat at the end of the term. Hopefully we have calculated the amount of ice-cream needed correctly. If we end up with tiny ice-creams that won't be much fun.

Some of us built a mountain in the sandpit at morning tea and lunch so we decided to make it into a volcano and blow it up! Well not really but we did make it look like it was exploding.

We did heaps of sport. There was netball, Super Smash Cricket, Hockey Big Day out, Swimming Sports and now we have been training for the triathlon.

Super smash Cricket

Chelsey, our music teacher, is teaching us how to play the ukulele. It is so much fun.
